

Environmental Policy Statement

The Management of Laker Vent Engineering Ltd is committed to the protection of the Environment this includes principles of pollution prevention and control as well as the continuous improvement of our environmental performance and environmental management systems. The Company also accepts our responsibility for maintaining the environment and for other people who may be affected by our activities.

Laker Vent Engineering Ltd compliance obligations include:

- Ensuring our activities such as fabrication, welding and testing has minimum environmental impact.
- To comply with applicable environmental legislation, and other requirements to which the Company subscribes which relate to our environmental aspects.
- Setting objectives and targets for environmental improvement and periodically reviewing these;
- Providing employee training with regard to environmental matters in order to control the activities for which they are responsible, this will be achieved through regular communication.
- Ensuring appropriate environmental standards from sub-contractors.

This policy, which has the support of the board of directors, will be communicated to all employees along with their environmental obligations and made available to any interested parties on request. The management is fully committed to implementing this policy and requires all employees and contractors to play their part. This policy will be reviewed annually as part of the management review process.
